

January 27, 2017

Dear Prolacta Customer,

In current and forthcoming shipments from Prolacta, you may notice bottles and caps in two different colors – a natural white shade and a darker tinted shade. Please be assured that the composition of the bottles and caps in each color is exactly the same as before, offering the same level of quality and safety.

As you are accustomed to with Prolacta, we have quality-tested our products with both bottle/cap colors. The two different colors are simply part of our efforts to ensure continuous supply for our customers.

If you have any questions, please feel free to contact us at [info@prolacta.com](mailto:info@prolacta.com).

Thank you,

Cynthia Denny  
Senior Product Marketing Manager
