

June 2017

Dear Prolacta Customer,

Prolacta will phase out the inclusion of the Adapta-Cap Bottle Adapter with shipments of [PremieLact](#)[®] Human Milk for Trophic Feeds.

With this change, please be assured that the product itself has not changed – Prolacta continues to offer [PremieLact](#) donor milk that meets the needs of the smallest premature infants who benefit from an exclusive human milk diet, with all the same benefits as before:

- May be used as a trophic feed to "prime the gut" for larger enteral feeds without wasting large amounts of donor milk
- The only donor human milk formulated to a minimum of 20 Cal/fl oz
- The only donor human milk that provides an average of 1.1 g protein/100mL¹
- Labeled in accordance with FDA food labeling requirements
- Two-year shelf life supported by real-time stability studies¹
- Can be administered up to 48 hours after the thawing process begins¹
- Available in a 10 mL volume

Product Code: 92003-10N

If you have any questions, please feel free to contact your respective [Customer Service Account Manager](#).

Thank you,

Sunil Sharma
Customer Service Manager
